

GV57

Waterproof GNSS vehicle tracker for wide ranging light duty applications

- IP67 Waterproof
- Compact Size
- Easy Installation
- Cost Effective
- I/O Interfaces
- OTA Control
- Scheduled Report
- Geo-fences
- External Power Monitorin
- SOS** SOS Alarm
- Tow Alarm
- Anti-Carjacking
- Tamper Protection for Critical Configuration
- Virtual Ignition Detection
- Up to 600 Buffer Messages

| 90g (3.17oz)

| 72 × 50 × 16.4mm
2.83"(L) × 1.97"(W) × 0.65"(H)

| -30°C ~ +80°C

| Li-Polymer, 190 mAh
Operating Voltage: 8V to 32V DC

The GV57 improves on the GV50 Plus based on customer feedback. With waterproof design, it ensures the product remains reliable when installed in the harsh environments. it supports panic button for emergency situation. The product is ideal for stolen vehicle recovery, auto financing and other basic tracking applications.
